## CAREER GOALS

I am seeking an opportunity as a Frontend developer to apply HTML, CSS, JavaScript, and React skills in real projects. I am currently studying Full-stack development to build a solid technical foundation, aiming to learn best practices from real teams, contribute to practical projects, and grow into a Full-stack Developer able to handle both frontend and backend effectively.

## TECHNICAL SKILLS

- **HTML, CSS:** responsive layout, Grid, CSS animation, basic SCSS
- **JavaScript (ES6+):** DOM manipulation, arrow function, destructuring, axios for API calls
- **TypeScript:** basic knowledge, interface for typing
- **ReactJS:** components, props, state, hooks, React Router, API integration (axios, async/await)
- **Version Control:** Git (branching, pull, merge), GitHub
- **Deployment:** Vercel, GitHub Pages
- **Tools:** Chrome DevTools, VS Code

## EDUCATION

**Full-stack Developer course – CyberSoft Programming Training Center**
(11/2025 – 4/2026)
- Learning roadmap: HTML, CSS, JavaScript, React, Typescript, NextJS, MySQL, ExpressJS, Prisma, NestJS, DOCKER

**Can Tho university - Vietnamese Studies**
(09/2015 – 09/2019)

## PROJECTS

**1. React Shopping App -** *[https://byvn.net/5HR1]*
- E-commerce web app with product browsing, related item suggestions, cart management, and invoice view.
- Features modern UI with product modal and smooth user flow.
**Role:** Built cart logic, product modal, and integrated API for dynamic data.
**Tech stack:** *ReactJS, Redux, React Router, API – async/await.*

**2. Personal Portfolio -** *[https://byvn.net/2aEu]*
- Website presenting personal projects, background, and skills.
- Designed with modern blue theme, animations, and interactive layout.
**Role:** Designed interface, implemented routing, and integrated contact form with API.
**Tech stack:** *React Vite, React Router, ReactTyped, Axios.*

**3. Todo List App -** *[https://byvn.net/qFsF]*
- Task manager with create, edit, delete, filter, and sort features.
- Data stored on MockAPI, interface styled with pastel theme.
**Role:** Developed CRUD functions, deadline filter, and category-based task management.
**Tech stack:** *HTML, CSS, SASS, JavaScript, RESTful API*
